Participants will practice techniques to improve breathing capacity, concentration, flexibility, strength, and relaxation. Exercises are done with the use of chairs and blankets or cushions.

TRX – *Participation in our Intro to TRX program is a pre-requisite to attending TRX class. Stay tuned into social media or ask the front desk about Intro to TRX program dates.* TRX stands for Total Body Resistance Exercise. It is a form of suspension training that uses body weight exercises to develop strength, balance, flexibility, and core stability simultaneously. It requires the use of the TRX Suspension Trainer, a performance training tool that leverages gravity and the user's body weight to complete the exercises. It is versatile, suitable for all levels, improves cardio and strength, engages the whole body, and is low impact in nature. This class will meet in the back of the gym. Please bring your own mat to use.

Weekend Warrior – A fusion of yoga and Pilates, this class will help jumpstart your weekend. Become more toned and flexible, while improving your balance.

Weighted Yoga* – Intermediate chair yoga class that incorporates breath work, seated asana with an interval use of light hand weights, and standing balance. This class will bring a new perspective to your yoga practice by building endurance, flexibility, and strength.
